Our Tuscan Kitchen offer includes a range of units, appliances and accessories to help you create your perfect kitchen. Also available from your local outlet is a huge selection of worktops, sinks & taps and flooring to personalise your kitchen.
Our Tuscan range of kitchens brings together a collection of high quality designs with honest value and great service. The range is designed for quick and easy on-site assembly, they are delivered flat-packed so can be stored with ease until ready for installation.
Our range of kitchens are supplied ready-to-assemble and available to order within a 6-11 working day lead time.

**20 YEAR GUARANTEE**

Expertly manufactured from quality materials, we’re confident you won’t be disappointed, but for additional peace of mind our self-assembly units come with a 20 year guarantee.

All doors and ranged accessories are guaranteed for 15 years.

Terms and conditions apply - visit www.tuscankitchens.co.uk for further details.

---

**CABINET SPECIFICATION**

Tuscan cabinets offer great durability combined with high specification and are supplied ready-to-assemble for speed and on-site modification. All Tuscan cabinets include high specification GRASS® hinges and drawers as standard. GRASS® Tiono hinges fitted in our cabinets feature an integrated soft close action. GRASS® drawers feature a smooth and silent soft close action and can carry more weight than alternative systems.

Our cabinets also include some other fantastic features and benefits as standard.

---

**FEATURES & BENEFITS**

- Strong, durable MFC cabinets with coordinating interior.
- 18mm MFC cabinets with cam and dowel construction.
- Full height solid back panel with a 50mm service gap.
- Durable non-chip 1.3mm edging all round to protect against moisture.
- Adjustable shelf positions with metal supports.
- Adjustable leg heights (between 140 – 180mm).

Our range of kitchens are supplied, to order, on a 6-11 working day lead time.

---

Beautiful, functional and technologically advanced, Caple appliances are central to the concept of a contemporary kitchen. From super sleek induction hobs to discreetly effective cooker hoods, whisper quiet dishwashers and smart [in every sense] wine cabinets, they cater for every lifestyle.
There’s a Caple oven for every kind of kitchen and every type of lifestyle. Choose from our sleek and elegant SENSE range or our exceptionally versatile Classic family. MotionHeat+ technology utilises specially designed vents and fans heat to evenly distribute hot air around the oven cavity. It reaches the desired temperature rapidly with no need to preheat, saving time & energy. Perfect for multi-level cooking without the transfer of flavours, achieving even results every time.

FEATURES & BENEFITS

• MotionHeat+
• Large viewing window with a large capacity to match
• Choose a control panel to suit you. Either full touch control, metal dials with touch control programmable electronic timers or solid metal dials.
• Across all Caple appliances we offer a free 2 year guarantee on parts and labour.

FEATURES & BENEFITS

• The removable, dishwasher-friendly, glass base remains still when the microwave is in use as opposed to the traditional circular rotating plate. Microwaves with a turntable free design allow you to make the most of the extensive 40L cavity and fit large or awkward shaped dishes into the microwave.
• Choose models with full touch controls or for a more traditional feel, opt for a push button model.

Across all Caple appliances we offer a free 2 year guarantee on parts and labour.

We spend a lot of time in the kitchen – so let’s give it the quality and creativity it deserves. Whether you’re a keen chef or simply love the social side of the kitchen, Caple has a fantastic range of quality appliances.

CERAMIC HOB FEATURES & BENEFITS
- Touch controls or fixed dials
- Frameless
- Across all Caple appliances we offer a free 2 year guarantee on parts and labour

INDUCTION HOB FEATURES & BENEFITS
- Memory recall - After switching the hob off, it is possible to recall the last-used settings with a couple of simple button presses
- Automatic pan detection - This feature detects when a suitable pan has been placed on a cooking zone, helping to eliminate the possibility of the hob being activated by a non-suitable object
- Booster and Booster+ - Saves time by increasing power for a quicker boiling time. Booster provides even further power and performance
- Across all Caple appliances we offer a free 2 year guarantee on parts and labour

ELECTRIC & CERAMIC HOBS

INDUCTION HOBS
Those who have cooked on gas rarely go back to any other hob. Gas rings provide immediate heat, and are intuitive, reliable, and super-easy to control. Our gas hobs come in sleek stainless steel or smooth finishes, and look fantastic in contemporary or classic kitchens.

Developed with cutting-edge design and outstanding efficiency in mind, DirectHeat+ sends the heat directly towards the base of the pan via a 45˚ inclined flame. More heat hits the base of the pan rather than escaping around the sides, therefore decreasing boiling time and bringing food to temperature rapidly.

**Features & Benefits**

- DirectHeat+
- Precise dial controls
- Flame safety device
- Across all Caple appliances we offer a free 2 year guarantee on parts and labour

FEATURES & BENEFITS
- Push button or touch controls
- Classic styling

Across all Caple appliances we offer a free 2 year guarantee on parts and labour.

Kitchen extractors work hard, removing moisture and grease from your kitchen. They also prevent lingering cooking odours; we might all love the aroma of a curry simmering on the hob, but we don’t want to smell it over breakfast. Extractors remove and filter the air, and then either return the freshened air back to the room or expel it outside through a vent. As well as being an essential kitchen appliance, you can also use a well-designed extractor as a real statement piece.

Caple’s wine cabinets create the optimum storage conditions for your wine; the correct temperature, humidity and air circulation. They use an low vibration technology to minimise disturbance. And of course, they look great.

**FEATURES & BENEFITS**

**Wi3123, Wi3124, Wi6140 & Wi6141 wine cabinets only:**
- Champagne shelves
- Converts into a can chiller using optional glass shelving

**All wine cabinets:**
- Adjustable height to fit 100-150mm plinth
- Across all Caple appliances we offer a free 2 year guarantee on parts and labour

Caple’s wine cabinets are designed to be the perfect companion to your Caple kitchen. With features such as:

- **White LED Lighting**
- **Touch Controls**
- **Square Handle**

These cabinets are not just functional, they also look fantastic. Whether you’re storing your prized vintages or keeping your beers and cans fresh, these cabinets are the perfect solution. They’re also ideal for small spaces, with dimensions perfect for under counter use.

**WINE CABINETS**

The W6141 model is a great addition to any kitchen, offering a sleek, modern design that will complement any interior style. It’s also energy efficient and makes great use of space. With a capacity of 295mm, it’s perfect for storing your wine in style.

FEATURES & BENEFITS

• Frost free models eliminate the need to manually defrost
• Some integrated models also have a fully adjustable balcony to accommodate larger bottles below
• Enhanced lighting
• Across all Caple appliances we offer a free 2 year guarantee on parts and labour

Keep your fresh food cool and your frozen food, well, frozen, in our range of fabulous fridges and freezers. Are you looking for an American-style statement piece that holds your weekly shop (and more), or do you need a discreet undercounter model? Whatever your space and your storage needs, Caple has a wonderful collection of cool appliances (in every sense of the word).
Who says that functional objects can’t look fantastic? That’s why we’ve designed our dishwasher and laundry appliances with an eagle eye on performance and style. Caple is renowned for ultra stylish looks, winch and all-round ease of use. With fast, efficient clothes washing and drying or sparkling clean dishes, our appliances will always get the job done beautifully with renewed effort.

**DISHWASHER FEATURES & BENEFITS**

- Adjustable upper basket
- Alternative Wash - available on a selection of models the alternative wash allows you to select either the upper or lower baskets for the load. You’ll save water and energy with smaller loads
- Delay Timer - allows you to delay the start time for between 1-24 hours
- Aquastop - automatically cuts off the water at the first sign of a leak, helping to avoid costly water damage
- Across all Caple appliances we offer a free 2 year guarantee on parts and labour

**LAUNDRY FEATURES & BENEFITS**

- Digital display
- Extra large doors
- My cycle
- Across all Caple appliances we offer a free 2 year guarantee on parts and labour

Lighting is one of the most important of all the finishing touches and not to be forgotten. We have a range of styles to choose from all of which are LED which means you don’t need to worry about changing them often. Subtle under cupboard spotlights can create the perfect atmosphere in the kitchen or use task lighting to highlight your working zone. Cool lights provide an ultra-modern aesthetic whereas warmer lighting can set a subtle, intimate environment great for entertaining.

**CAPLE ACCESSORIES**
We understand that buying a worktop can be a daunting task, but your local branch will help you make the best choice to suit your budget and lifestyle. We offer an extensive range of worktops from laminate to solid surfaces and wood in all the latest designs and textures to cover all tastes and pockets.

Why not complement or contrast your worktop with an upstand, splashback or hob panel which can be used to create a border and a kitchen that is truly unique.

**Laminate**
Laminate worktops are the most versatile, easy to maintain and affordable worksurface you can buy. Fabulous designs and stunning textures mean there is no compromise on style and quality with this incredibly versatile and practical material.

**Solid Wood**
Solid wood worktops are an investment in timeless quality and natural beauty. Crafted from the finest quality hardwoods, you can always be confident about their durability. Pre-oiled Oak worktops in clear or stained options provide a practical solution that minimises installation time and offers a chic colour palette.

**Compact & Solid Surfaced**
A chic surface that brings together designer looks and everyday practicality. We have a range of options that can be installed by your kitchen fitter on site. Choose from a wide array of colours which can be matched to your breakfast bar and upstands.
The Tuscan collection offers an extensive choice of stunning sinks and taps. Elegant yet hard-wearing, our range allows you to make your own statement with classic and contemporary styles across a choice of materials. High on looks yet low on maintenance, Tuscan sinks and taps withstand daily wear and tear, are easy to clean, and provide a hygienic and durable surface whilst retaining their stylish appearance. Whether you prefer the fresh, contemporary look of polished stainless steel, or the nostalgic quality of a traditional Belfast, a Tuscan sink and tap adds a touch of luxury.

**Stainless steel**

Stainless Steel offers a modern and versatile kitchen sink material, boasting long lasting corrosion resistance and a choice of Polished or Brushed finish. Our range of stainless steel sinks are made to the highest quality across a range of designs, offering both inset and undermount models making them compatible with any worksurface material. With various bowl sizes and drainer options, this material is a popular choice for any contemporary kitchen.

**Granite**

All our granite sinks are highly resistant to staining, scratching and can withstand temperatures of up to 280°C. Your kitchen sink is one of the most important and hardworking appliances, so you need to make sure it’s up to the job. Granite keeps on looking good no matter what you throw at it.

**Ceramic**

Our ceramic sinks are individually hand crafted and finished in fireclay, resulting in a hard non-porous surface that gives excellent resistance to scratches and chemicals. In a choice of designs, offering both inset and Belfast options, this classic material is suitable for both traditional and contemporary styled kitchens. Easy to clean and maintain thanks to the fireclay white gloss finish, these beautifully crafted pieces bring a fresh look to any kitchen.
We offer a comprehensive flooring portfolio featuring leading brands that are always up to date with the latest designs and surface textures. Our collection includes laminate, waterproof, luxury vinyl and wood options.

With advances in technology you no longer have to choose real wood to get ‘a real wood look’. In fact if fitted well, a good quality vinyl or laminate offers you performance benefits over real wood. We can guide you through the selection of the best type of flooring for you.

**Wood**

When it comes to adding natural warmth and beauty to your kitchen, nothing beats the magnificent and timeless appearance of wood flooring. Both solid and engineered hardwood floors are fabricated from 100 percent wood, which means that the floor preserves the unique appearance and textured grain of natural timber. Solid wood flooring is exactly what the name implies: a solid piece of wood from top to bottom. Engineered wood floors are real wood floors that are manufactured using multiple layers of wood veneers.

**Laminate**

Laminate flooring has an MDF core, covered by a photographic image of wood, stone or tile, with a protective overlay. Brands such as Swiss Krono and Quick-Step offer flooring with bevelled edges and embossed features, such as knots which give a high quality look and feel to the product. Some of the products include a waterproof core or come with moisture resistant technology, which is particularly suitable for use in kitchens.

**Vinyl**

Fuss free and functional, vinyl flooring is affordable, easy to clean and ideal for busy homes. Perfect for the kitchen, bathroom and conservatory; vinyl flooring is family and pet friendly. Choose from a variety of realistic finishes including wood, tile and stone to achieve a faultless finish in any room.
Proplas PVC wall and ceiling panelling provides a stylish and practical alternative to more traditional methods of decoration such as tiles or paint. The moisture resistant panels utilise a tongue and groove fitting system, providing a seamless finish and making installation quick and easy. Ideal for use on both walls and ceilings, Proplas can be fitted directly over existing tiles or Artex. With modern designs including sparkles, marbles and tile effects, plus tactile matt textures and light reflecting high gloss finishes, Proplas creates a functional and contemporary finish in any setting.
