Clicwall
Immediate Decorative Wall Panelling

Seamless Wall System for the Shopfitting Industry
Introduction

Clicwall provides an immediate decorative wall system in a fraction of the time when compared to traditional methods, thanks to the patented inconspicuous joint system from Unilin.

Available ex-stock in 12 stylish designs including woodgrains and plain colours, there is also a paint-grade option which provides the perfect surface for painting, wallpapering, covering with textiles or printing with a bespoke image, pattern, message or design. Please contact us for further information about our digital print service.

To order product samples or for any additional information, please contact our sales team on 0845 023 0376, email solutions@idsurfaces.co.uk or visit www.idsurfaces.co.uk

**PLUS** Paint 050-MAT paint grade for digital print, wallpaper or painting.
Why choose Clicwall?

Clicwall is up to five times faster to install when compared with traditional plasterboard methods, saving on labour costs as well as time, and because it does not require additional finishing dust and dirt is kept to a minimum.

Clicwall v’s Plasterboard

Substructures

- Metal substructures
- Timber substructures
- Timber battens straight onto wall

Fixing Systems

- Screws
- Staple
- Glue with MS polymers

Cost

Clicwall = faster delivery of the project = less additional cost
Fire resistance

When installed in accordance with the instructions below, Clicwall guarantees fire resistance of 60 and 30 minutes respectively.

**Clicwall installation with fire resistance EI60**

- European certificate for non-bearing partition wall - EN 1364-1:1999

**Clicwall installation with fire resistance EI30**

- European certificate for non-bearing partition wall - EN 1364-1:2015

!![Diagram]

Antivlam against metal stud wall: wood screw 4.0 x 25
Clicwall FR on Antivlam: MS-polymer bonding

Clicwall against timber battens: wood screw 3.5 x 16

Acoustic comfort

In the EI60 set-up, Clicwall provides a very high acoustic comfort value of 48dB and thus readily achieves the most current sound-proofing requirements.

Accessories

Co-ordinating profiles and skirting boards ensure a perfect finish.

- Flexible interior and external corner profile in a matching design: 2750 x 42 x 3mm
- Matching skirting boards: 2400 x 80 x 12mm
- Aluminium internal and external corner profile: 2785 mm
- Aluminium T-profile: 3000 mm
- Paintable skirting boards: 2400 x 160 x 16mm
