HPL PROPERTIES

The most important quality characteristics of decorative High Pressure Laminates according to EN 438

- Impact Resistant
- Scratch and wear-resistant
- Light fastness
- Easy to clean
- Heat-resistant (up to 180°)
- Hygienic
- Suitable for contact with food

Over 60 years of research and technology

Since 1954 Arpa Industriale has been designing and manufacturing panels with high quality HPL technology for the most diverse applications: from architecture to interior design, from healthcare to shipyards, from transport to hospitality, from retail to kitchens. It offers a vast range of choices of products, extremely varied in both structure and appearance. Arpa HPL are produced at the 150,000 sqm plant in Bra, Piedmont, with all the expression of lively and original creativity that the "made in Italy" label stands for. The 60 years of investment in research & technology and staff training have enabled Arpa to gain a leading position on the international markets and a reputation for great reliability: it is an industrial firm that stands out for the expertise of staff, the quality and variety of what it offers, its manufacturing flexibility and its range of services.
